

## PRESSEINFORMATION

### **InVision Software at EuroCIS 2010: Standard Software with a High Degree of Individualization**

Ratingen (Germany), January 26, 2010 – InVision Software, a world-leading supplier of solutions for enterprise-wide [workforce management](#) (WFM), is again exhibiting at this year's [EuroCIS](#), Europe's leading IT trade show for retail with about 200 exhibitors. EuroCIS 2010 takes place in Duesseldorf, Germany, from March 2 to 4, 2010. At InVision's booth in hall 14, stand E.44, visitors can experience how the user-friendly and efficient software solution [InVision Enterprise WFM](#) can optimize staff scheduling in retail.

By means of successful [retail customer projects](#) implemented by InVision Software, the company will show that standard software can offer a very high degree of individualization as well and that it offers comprehensive customization options with regard to the specific and individual [scheduling](#) requirements in retail. On Thursday, March 4, at 11.30 a.m., a presentation on this subject will take place at the Exhibitor Forum: "Workforce Management – Custom Software vs. Off-the-shelf Products: Incongruous Contrast or Winning Combination?" (Speaker: Andreas Bopp, Vice President, Sales Central & Eastern Europe, InVision Software (Deutschland) GmbH).

Moreover, visitors will get an impression of the comprehensible user interface which enables a smooth deployment of the application for the planning processes on the sales floor. Thus, while introducing a new workforce management system, time and costs for the roll out and implementation of the entire project are reduced considerably as well as [employee acceptance](#) is increased and the adaptation phase is minimized.
